SUMMARY

Final-year B.Tech Computer Science & Engineering student with hands-on experience in Python, machine learning, NLP, and computer vision. Built desktop AI applications, a customer churn prediction model, and a chess application with automated move detection. Seeking Software Engineering, Data Science, or Machine Learning roles.

EXPERIENCE

Data Science Virtual Intern, Unified Mentor Private Limited — Aug 2026 – Nov 2026

- Completed a 3-month data science internship working with Python, Pandas, NumPy, Matplotlib, and Scikit-learn.
- Applied data preprocessing, exploratory data analysis, and machine learning model building to real-world datasets.

PROJECTS

ATLAS – AI Desktop Virtual Assistant | *Python, LLM inference, Speech Recognition, NLP*

- Built a desktop voice assistant that combines LLM inference, speech recognition, and NLP for voice interaction.
- Implemented task automation commands triggered by voice input.

Customer Churn Prediction | *Python, Pandas, Scikit-learn, Matplotlib*

- Developed a machine learning application that predicts customer churn using data preprocessing and feature engineering.
- Added interactive data visualization to present model results.

AI-Integrated Chess Application | *Python, Stockfish, Computer Vision*

- Built a chess application that uses computer vision to detect the board and moves automatically.
- Integrated the Stockfish engine for AI move analysis.

Face Recognition System | *Python, Computer Vision, Machine Learning*

- Built a system that matches a user's face against a stored database.
- Added gender, age, and emotion detection.

EDUCATION

B.Tech, Computer Science & Engineering, Mallabhum Institute of Technology, Bishnupur — Sep 2023 – Aug 2027

Higher Secondary (PCMB), Chhotobainan High School – 74% — May 2023

Secondary Education, Chhotobainan High School – 83.85% — July 2021

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript, C, Java
Data Science: NumPy, Pandas, Matplotlib, Scikit-learn, Data Visualization, Feature Engineering
AI/ML: Machine Learning, NLP, Computer Vision, LLMs
Web: Flask, Django
Databases: MySQL
Core: Data Structures & Algorithms, Object-Oriented Programming
Tools: Git, GitHub, VS Code, Linux

CERTIFICATIONS

Generative AI for Beginners, Simplilearn SkillUP — Aug 2025
